

Totally China Blue

Music and Lyrics by
Michael Caputo

You and 18
Have never been farther apart
It's a zombie's own way of
Finding a road in the dark
And it feels so good
Yeah it feels alright
And you're downright begging
A taste so you get through the night

New days and used days
Zooming through a cosmic haze

Consequential meditation
Spike a C-note in your shoe
Driving to Malaysian Station
Totally China Blue

I can imagine your pain
It should be breakin' your heart
It's Mr. Jones you're feeding
When you're looking for the magic dart
Make your mark on the streets
Let the grate houses fall
And you chase the white lady
With a picture of Christ on your wall

Pack those things and wait outside
Break on through to the other side

Consequential meditation
Meet up with the Red Light Crew
Driving to Malaysian Station
Totally China Blue

Totally China Blue
(Repeat and Fade)
